

MMASS Ltd

Tank Cleaning Machines

Eliminate the Need for Tank Entry

MMASS Mud Cleaning Machines tailored to your needs, available in Bronze or Stainless Steel

Supply Vessel Mud Tank Cleaning Packages

In addition to mud tank cleaning systems, MMASS can supply packages including suitable pumps, strainers, hot water circulating pumps, chemical dosing pumps, chemical tanks, and heat exchangers for hot water systems.

Drilling Rig (MODU) Mud Pit Cleaning Systems

Mud pit and mud tank cleaning systems are complex and operators, rig owners or support vessel owners wishing to install them are recommended to consult MMASS at an early stage.

Portable Mud Tank Cleaning Systems

Once more, if a portable mud tank or pit cleaning system is under consideration, then MMASS is able to advise on the most appropriate specification of equipment.

Comprehensive Mud Tank Cleaning Solutions

Stainless Steel Tank Washing Machine

The stainless steel tank washing machine is designed specifically for mud and brine applications. It has a fully sealed gearbox and open nozzle head to ensure continuous operation in all conditions. A combination of nozzle sizes and cycle times allows the machine to be tailor made to suit specific applications.

It can be supplied as a fixed, permanently installed unit or as a portable machine.

Bronze Tank Washing Machine

The bronze tank washing machine is designed specifically for mud and brine applications. Its fully sealed gearbox and open nozzle head ensure continuous operation in arduous conditions. It can be supplied as a portable unit or as part of a permanently installed system, providing cost effective, reliable and efficient service, tailored to your needs, available in one of twenty-four variations.
